Plant and Animal Domestication

This module explores centers of plant and animal domestication in a geographic context. There are several activity/assignment options.

This module contains:
Maps and descriptions for discussion
Assignment master
Instructions for ‘card game’
Extra ‘cards’

Additional materials:
4 ‘card boxes’
1 large box and bowl of plant and animal models
Dried plant material
   - all in grey cabinet

Advanced Preparation
TA should be familiar with the concepts.
Make copies of handouts and exercise.
Review activity instructions (a run-through before class helps)
