

Plant and Animal Domestication

This module explores centers of plant and animal domestication in a geographic context. There are several activity/assignment options.

This module contains:

Maps and descriptions for discussion

Extra 'cards'

Additional materials:

4 'card boxes'

1 large box and bowl of plant and animal models

Dried plant material

- all in grey cabinet

Advanced Preparation

TA should be familiar with the concepts.

Make copies of handouts and exercise.

Review activity instructions (a run-through before class helps)
